REC/CDC/STEM-Maths(01)/2017-18/3306

April 5, 2018

The Chief DEO/TEO
All Dzongkhags/Thromdes

Subject: Revised Mathematics textbooks for Classes PP – VI.

Dear Sir/Madam,

Subsequent to the resolution of the National Curriculum Conference, 2016, and as recommended by the study of the Evaluation of School Mathematics Curriculum (PP-XII), the REC conducted an exercise to validate and incorporate the recommendations for Classes PP to VI.

Since there are no major changes in the content, the edition remain unchanged. In the Reprint/Print 2017 textbooks, while no new topics have been added, some lessons have been deleted, and some units rearranged without losing the overall essence. Therefore, teachers can still continue using the latest available reprint textbooks in the school in keeping with the existing book life policy of three years.

This is an official reminder in addition to the electronic communications made earlier through REC website. Therefore, kindly instruct all the Primary Schools to take note of the changes and implement them accordingly.

Thanking you,

Yours sincerely,

Kinga Dakpa
(Director)
